TECHNICAL SKILLS

Languages/Frameworks: React, Redux/RTK, JavaScript, TypeScript, Golang, Node.js, Express, MongoDB, MySQL, HTML, CSS/Sass, Bootstrap
Programming Skills: Data Structures and Algorithms, System Design, Debugging
Developer Tools: VS Code, Git/GitLab, Azure Devops, JIRA, Zoho, Postman, Confluence

EXPERIENCE

Coforge Ltd   Oct 2024 – Present
Sr. Software Developer   *Noida*
- Worked on ***Adecco - Global Onboarding System***, a paperless hiring platform to streamline recruitment for both candidates and recruiters.
- Optimized **RESTful APIs** with Golang, reducing API response time by 20%.
- Worked on a **Document management system** for seamless collection, storage and retrieval of candidate documents.
- Developed **role-based UI** components to control user access.

TechAhead Pvt Ltd   Jul 2023 – Oct 2024
Software Developer   *Noida*
- Worked as a **MERN** stack developer on ***TNCC***, an e-learning platform designed to deliver interactive and engaging educational experiences globally.
- Implemented authentication and authorization systems with **OAuth** and **JWT**, and developed role-based access control (**RBAC**) mechanisms.
- Integrated real-time chat using **Socket.io**, enabling seamless communication between students and instructors.
- Utilized **Redux** and **Redux-Saga** for state management, and **Redux-persist** for caching.
- Developed file upload functionality, integrated audio/video players, implemented pagination and **lazy loading**, and incorporated chart libraries for data visualization.

- Designed and developed ***Saritoria***, an e-commerce platform designed to boost online sales and customer engagement.
- Developed **REST APIs** with Node.js and Express.js for seamless front-end and back-end integration.
- Built **reusable and customized** components for tables, dropdowns, popups and custom hooks for various use cases.
- Integrated Redux for state management and React Router for dynamic navigation, ensuring a smooth and consistent user experience.

Ekaasha Technologies   Jun 2021 – Jul 2023
Software Developer   *Noida*
- Developed ***Utility-X*** from scratch, a platform that integrates multiple services into a unified interface, enhancing user experience and streamlining service management.
- Contributed to enhancing the dashboard and admin panel, improving user management and administrative tasks.
- Implemented **lazy loading** for modules, created configurable React components, a common loader, and a **central network layer** for API calls.
- Integrated Razorpay for secure and seamless online transactions.

PROJECTS

YouTube Clone | *React, Redux, JavaScript, Tailwind CSS*   Mar 2021
- Integrated YouTube's public API to fetch videos and optimized the search feature with debouncing. Added support for live comments with LRU caching and N-level nested user comments.

Problem Hub | *React, Redux, Node, MongoDB*   Dec 2020
- Developed a web app for categorizing and storing different problems and their solutions with server-side pagination and search for efficient, scalable data handling.

EDUCATION

JSS Academy of Technical Education   Jul 2014 – Jun 2018
Bachelor of Technology in Electronics and Communication   *Noida*

ACHIEVEMENTS / EXTRA CURRICULAR

- Completed a comprehensive Go programming course with multiple certifications across different modules.
- Winner of Zoom Marathon Challenge held by MASAI.
- Bucket 1 Appraisal rating for FY 2023-2024.
